WITNESSETH:

- (a) Upon written authorization from any employee, the Commission shall deduct from his/her salary, his/her union dues and P.E.O.P.L.E Fund contributions biweekly, and union membership fees as needed, and will remit to the appropriate agency. Union dues start 30 days after the hire date.
- (b) Upon written request of the Union, the employer shall deduct a monthly "Fair Share" fee from the wages of employees who are eligible to join the Union and choose not to join. ARTICLE IV - HOURS OF WORK AND OVERTIME

Section 1. DAY AND WEEK SCHEDULE

The regular work week for all employees, except shift workers and Utility Worker-Fuel Handlers shall be Monday through Friday, eight (8) hours per day and forty (40) hours per week.

Section 2. REGULAR SHIFT

- (a) The regular hours of work for other than shift workers shall be posted by each Department and shall include an intermission for meals not to exceed one (1) hour. The normal Operations and Maintenance Department schedules other than shift workers shall be 7:00 a.m. to 3:30 p.m.
- (b) The above schedules may be modified at the discretion of the HPUC. Such modifications shall be prepared by the Department Head involved and approved by the General Manager and posted at least one (1) week in advance of the effective date. Such modifications are not intended to cause split shifts.
- (c) When operating conditions make it necessary for employees to work during their normal scheduled lunch period, an alternate lunch period of equivalent time will be designated by the Supervisor. The alternate lunch period normally designated to begin not more than one (1) hour before or one (1)

hour after the starting time of the regular scheduled lunch period and when so designated, time worked shall be considered as a part of the regular scheduled workday.

- (d) (MOVED FROM ARTICLE XII Section 2.) Employees are expected to report and leave the plant at designated hours. Continued violation of this provision will result in disciplinary action up to and including discharge.

Section 3. SHIFT WORKERS

The regular hours of work for shift workers working in a classification of work where service is required twenty-four (24) hours per day and seven (7) days per week shall be in accordance with a posted work schedule prepared by the department head and approved by the general manager. Such schedule will provide for a twelve (12) hour day. Dayshift is 5AM to 5PM; Nightshift is 5PM to 5AM.

Section 4. UTILITY WORKER-FUEL HANDLERS

Utility Worker-Fuel Handlers shall work in accordance with a posted schedule prepared by the Department Head and approved by the General Manager and shall provide for an eight (8) hour day and a forty (40) hour week.

Section 5. OVERTIME PAYMENT

- (a) Employees shall be paid time and one-half for all hours worked before their regular starting time and after their regular quitting time if such time is in excess of eight (8) hours per day or forty (40) hours per week but overtime shall not be paid for both. (Overtime shall not be pyramided.)
- (b) An employee working more than sixteen (16) consecutive hours will receive double time for every hour over and above the initial sixteen (16) consecutive hours.
- (c) Shift workers shall be paid time and one-half hours for all hours worked before their regular starting time and after their regular quitting time if such time is in excess of twelve (12) hours per day, or forty (40) hours per work week.
- (d) Shift workers shall not be allowed overtime for work performed on Sunday when such work is performed on the regular shift. (MOVED FROM ARTICLE XII GENERAL WORKING RULES Section 2.)

Section 6. SHIFT DIFFERENTIAL

- (a) When Payable: Shift Differential will be paid to all scheduled shift workers as follows:
- 1) \$.30 per hour for afternoon shift.
 - 2) \$.50 per hour for a night 12-hr shift (new)
- Shift Differential to be paid on scheduled shifts shall be paid only on the hours worked.
- (b) When Not Payable: Shift Differential will not be paid during vacation or sick leave. Regular overtime will apply only to regular pay with Shift Differential added to the total sum.
- (c) Shift Differential will apply to all employees on scheduled shifts and will not be paid to an employee on call-out.

Section 7. EQUALIZATION OF OVERTIME

- (a) Subject to the provisions of this Section, overtime worked shall be divided as equally as possible among the employees who normally perform the work in the Department where the work is to be accomplished and within their job classification. The goal of distributing overtime as equally as possible refers to overtime distribution within a crew on an annual basis.
- Crew Leaders and Plant Operations Shift Coordinators shall keep daily logs and once per week update the weekly overtime sheet. Based on this update, a new weekly overtime list will be prepared and distributed on Fridays.

The employer is not required to break works in progress for the purpose of equalizing distribution of overtime. For Monday through Friday crews, overtime occurring as an extension of the shift may be assigned based on agreement of the crew. Provided, however, on the Utility Worker-Fuel Handler Crew, the Commission shall not be required to break works in progress if the Crew Leader determines that the overtime is not likely to last more than three (3) hours.

An employee transferring between departments will be considered to have overtime equal to the highest employee doing the same work on the date the transfer was effective.

When an employee has been so excused, notation shall be made on the overtime records that the employee has been offered and has refused the number of hours which would have been worked, and those hours shall be considered as "hours worked" in the future distribution of overtime.

- (b) In selecting employees for scheduling or planned overtime the Commission will excuse employees who do not want the assignment, provided the required number of qualified employees are available. The option of the employees to turn down assignment to scheduled or planned overtime, provided there is enough qualified employees available, is not intended to apply to emergency overtime.
- (c) When additional help is needed beyond the number desiring the assignment, the additional assignments will be made in inverse order of the amount of overtime worked. Employees in this instance, must make themselves promptly available for work.
- (d) The following definitions shall apply for the purpose of assignment of overtime is concerned:
 - 1) Scheduled or planned overtime shall mean work for which at least 24 hours notice has been given.
 - 2) Emergency overtime shall mean work for which, if not accomplished, will interfere with the Commission's obligation to provide continuous operations for the health and safety of the general public. Employees do not have the option to turn down an assignment to emergency overtime.
- (e) Additional provisions relating to firing line:
 - 1) A firing line worker will be considered to be on vacation, and thus not normally subject to call to fill an overtime shift, only if approved vacation, compensatory time or personal day brackets the beginning or end of scheduled days off.
 - 2) A firing line relief person may have his/her work schedule changed at any time to cover a shift.
 - 3) On the firing line, in the absence of a relief person, it is the responsibility of the qualified person in the classification who is lowest in overtime hours and is scheduled off to cover the uncovered shift when such shift does not interfere with his/her normal shift.
- (f) An employee returning from extended sick leave of more than 30 working days shall have their overtime hours adjusted to match the low employee in overtime on the crew, or maintain present number of hours, if not low.

Section 8. CALL OUT

- (a) Employees called in for work outside of their regular working hours shall be paid at the overtime rate. Shift differential shall not be considered in computing the overtime rate. Such pay shall be computed from the time employee arrives at the reporting location to the time of completion of his/her work and return to the designated reporting location of the Department, provided that he/she shall not be paid at the overtime rate for any work falling within his/her regular working hours. An employee called in for such work under the terms of this paragraph will receive a minimum of three (3) hours pay at his/her overtime rate for each time he/she is called out; however, this minimum pay is not to apply if called out less than thirty (30) minutes prior to his/her regular shift starting time.

- (b) The Commission's responsibility to distribute overtime "as equally as possible" includes overtime payable under Section 8 also. If an employee is called out under Section 8 in error (such as when another employee with lower overtime hours should have been called) the Commission shall not be liable for any missed call-out pay to the employee who was not called. However, if any employee is not called due to error more than once during a six-month period, then the Commission shall be liable for missed call-out pay for each occasion during the six-month period after the first occasion.
- (c) If an employee not regularly scheduled between 11:00PM and 5:00AM is required due to emergency or receives call-out during such hours, the employee's starting time for the following day's shift shall be adjusted back based upon actual hours worked between 11:00PM and 5:00AM if the employee did not have an eight (8) hour rest period between work periods. The regular starting time can be adjusted up to five (5) hours (noon) with no loss in pay for the late start and the ending time of their shift shall not be adjusted. If the eight (8) hour rest period exceeds five hours of the next scheduled shift, the entire shift will be paid as straight rest time.
- (d) If the emergency or call-out continues into the regularly scheduled shift, sixteen hour worked per day provisions apply. If this event occurs, once the employee obtains sixteen hours, they are excused from work and the remaining part of the regularly scheduled shift will be paid as straight rest time.
- (e) An employee who has worked sixteen (16) hours or more continuously or who has worked more than sixteen (16) non-continuous hours in a twenty-four (24) hour period, shall, upon release be entitled to an eight (8) hours rest period before returning to work. If, during the eight (8) hour rest period the employee is recalled to work for emergency response, the employee affected shall be paid at the overtime rate for all hours worked on that shift and all continuing shifts until the employee has been able to receive an eight (8) hour rest period.

Section 9. STAND-BY DUTY

- (a) Employees whose job requirements include assignment to take emergency calls outside of normal scheduled hours will be required, during periods of such assignment, to make themselves available to their reporting location within thirty minutes (30) . Contact by the Public Utilities Commission to individuals on such stand-by duty shall be by a cell phone, to be furnished by the HPUC.
- (b) When employees have been placed "on call" they shall be called before or concurrently with other employees in the case of emergencies.
- (c) The "on call" employee shall complete the form associated with trouble calls and shall submit a concise report as to the difficulty involved, the corrective action associated therewith and, if there is a delay in restoring services, an explanation shall also be provided for this delay. The "on call" employee shall call in an extra employee(s) for assistance only after determining that such help is required.

- (d) Any "on call" employee who is assigned by the Commission to take emergency calls outside his normal scheduled hours will be paid at basic straight time rates as shown below

Monday through Friday	1.5 hours
Saturday, Sunday	3 hours
Holidays	4.5 hours

If called upon to perform work, in addition to the call-time pay, the employee will be paid for the time worked at the rate applicable but not less than three (3) hours at the applicable overtime rate for each time called out.

- (e) On a recognized holiday, the on-call employee shall receive three (3) hours holiday pay starting at 7:00 A.M. to 3:30 P.M. for said holiday plus normal rate.
- (f) An employee "on call" under the stand-by portion of this Agreement is responsible for notifying the Commission if he/she becomes too ill to perform the job in the event of an emergency call. This

would apply whether the employee was out sick for the regular shift or if the incapacity occurred during or after the regular shift had been completed. Such notification in the event of illness or serious accident is paramount to the continued success of serving the Commission's customers in an emergency situation. Any hours of pay earned from the stand-by provision may be converted to compensatory time in accordance with Article VI Section 11. One hour of stand-by pay would convert to one hour of compensatory time.

- (g) If an on-call employee does not report to the Plant Operations Shift Coordinator in the time allotted in Section (a), or fails to respond to his/her page, the "on call" employee shall forfeit the 1½ or 3 hours "on call" pay for that day.

Section 10. OVERTIME MEALS

The Commission shall furnish a meal under the following conditions:

- (a) After an employee has worked three (3) hours or more at the end of and in addition to his/her regular work day, they shall be entitled to a meal and thereafter to an additional meal for each additional six (6) hours worked. The meals shall be taken when practicable.
- (b) Employees called out without previous notice to start working during non-scheduled hours shall be entitled to meals as follows: If the employee is called out to start more than two (2) hours prior to his normal starting time, he shall be entitled to a meal after working two (2) hours and thereafter to an additional meal for each additional six (6) ours worked. The meals shall be taken when practicable.
- (c) When arrangements are made in advance for prearranged, scheduled or planned work during nonscheduled hours, employees are not entitled to a meal. Provided, however, for scheduled overtime lasting more than 12 consecutive hours, employees shall be eligible for a meal allowance.
- (d) For the purpose of determining meal eligibility, only time worked outside of regular scheduled work hours shall be counted. Where the work of overtime prevented an employee from making preparations for a meal during regular scheduled work hours, the Commission shall provide a meal.
- (e) If the meal is not required, an employee is urged not to request it. To comply with IRS non-cash fringe benefits taxable income rules, overtime meals for all employees except for Plant Operations (Firing Line) will be included in their pay as a non-cash fringe benefit (imputed income) and taxed properly.
- (f) The maximum meal allowance paid by the HPUC will be \$14.00 plus delivery fee for any meal Employees shall be required to pay the cost of overtime meal upfront and submit a receipt to their immediate supervisor for reimbursement. All overtime meals, except for Firing Line employees, will be taxed as imputed income. There shall be no restriction on where said meal is purchased.

Section 11. SUNDAY PREMIUM

Shift Workers and Utility Worker-Fuel Handlers required to work on Sunday shall be paid at the rate of one and one-quarter (1¼) times their normal rate. Sunday premium will not be paid in connection with regular overtime or in paying vacations, sick leave or other benefits.

For the Firing Line and for Utility Worker-Fuel Handlers, the Holiday will be paid for the actual Holiday, regardless of the day of the week it falls on, and regardless of when it is officially celebrated.

Section 3. WEEKEND HOLIDAY PAY

Employees required to work on any of said holidays shall, in addition to holiday pay, be paid time and a half for the hours worked.

Section 4. HOLIDAYS THAT FALL ON SCHEDULED DAY OFF

When any of said holidays fall on an employee's scheduled day off, such employee shall be paid eight (8) hours holiday pay.

ARTICLE VI – VACATIONS & PERSONAL LEAVE

Section 1. VACATION ACCRUAL

All employees on the regular payroll shall be granted annual paid vacations to be earned, computed, credited and taken as set forth below.

Section 2. VACATION ACCRUAL SCHEDULE

Vacation shall be earned by continuous service in accordance with the following schedule:

1 year -	Six (6) working days to be taken prior to his/her next anniversary date.
2 years -	Eleven (11) working days.
6 years -	Sixteen (16) working days.
14 years -	Twenty-one (21) working days.
20 years -	Thirty-one (31) working days.

Shift-workers vacation schedule is based on an 8-hr day. Example 1 year – six (6) working days equals forty-eight (48) hours.

Section 3. ANNIVERSARY DATE

Earned vacations shall be credited to employees on their anniversary date.

Section 4. VACATION EARNINGS

Vacations shall be considered rest periods earned during one vacation year and shall be taken during the following vacation year. Each employee's vacation year begins and ends with their individual anniversary date.

Section 5. VACATION CARRY OVER

Employees may carry ten (10) days of unused vacation time past his/her anniversary date. This vacation time must be used within one year following his/her anniversary date or it will be forfeited. An employee shall not be paid in lieu of vacation time due. Shift workers: Ten (10) days is equivalent to eighty (80) hours.

Section 6. VACATION SCHEDULES

By no later than March 1st of each calendar year, Department Heads, after having consulted with the employees in their respective departments entitled to vacation, shall prepare vacation schedules and the necessary work schedules during vacation periods for the current year. In so doing the wishes of

employees shall be respected insofar as the needs of the respective departments will permit; it being understood that in selecting vacation time, in the absence of agreement among employees, senior employees shall have preference. On split vacation, preference due to seniority shall apply only to the first choice.

Section 7. VACATION USAGE

- (a) Vacation periods normally shall not be broken down into periods shorter than one (1) week. Vacation periods in excess of three (3) weeks may be taken only with the approval of the Department Head.
- (b) Vacation requests in 2 hours increments shall be permitted upon prior approval of the Department provided the employee can be spared from duty. These vacations must be scheduled at least twenty-four (24) hours in advance for employees except for those working the firing line, firing line employees must be scheduled forty-eight (48) hours in advance.

Section 8. MODIFICATION OF VACATION SCHEDULE

Vacation schedules may be modified from time to time on account of unforeseen circumstances and to accommodate the needs of the respective departments. No employee shall go on vacation without first obtaining approval of his/her Department Head.

Regular part-time employees shall be granted vacations pro-rated on the basis of time actually worked.

Section 10. HOLIDAYS NOT COUNTED AS WORKING DAYS

Section 11. COMPENSATORY TIME EARNINGS

Twenty six and .66 (26.66) hours overtime can be converted to 40 hours of compensatory time per year. Compensatory time may only be taken (as vacation is approved and taken, minimum 2 hours at a time) if no other member of the crew and/or department is currently off duty for any reason and without causing an overtime shift.

No compensatory time shall be allowed if it creates any overtime shift on the day it is taken or on an immediate adjoining shift. If compensatory time is requested for a future day and any other department employee makes a request for time off later, this later time off request will be responsible for any overtime shift and not the previous compensatory time off request.

An employee may cash out accumulated compensatory time in the last paycheck of any calendar quarter, provided the employee gives notice at least two weeks in advance of intent to cash out compensatory time. (Cashing out compensatory time does not change the maximum twenty six and .66 (26.66) hours overtime that can be converted to compensatory time per year.) If not taken or cashed out by December 31st, the compensatory time will be paid on the last regular check of the year.

Section 13. FURLOUGH DAYS

All employees will be given up to (5) five voluntary furlough days per year commencing effective January 1, 2011. Furlough is defined as a day off without pay, while still retaining other benefits. An employee must make a written request for furlough and can only request one day of furlough at a time. Management reserves the right to deny any particular request any time previous to 16 hours before the furlough is scheduled to commence. Furlough is scheduled to commence at the beginning of the scheduled shift. All shift workers will be given up to forty (40) hours of voluntary furlough per year.

Section 14. PERSONAL LEAVE

An employee shall be granted up to four (4) days paid leave each year for personal business. Personal leave can be denied at the immediate supervisor's discretion. The employee will call his/her Immediate Supervisor prior to his/her regularly scheduled work hours. This does not apply to shift personnel, where a two (2) hour advance notice is required for any personal days.

The employee will be eligible for the annual allotment of personal leave days as of the employee's anniversary date and the leave days will be available to be taken until the next year's anniversary date. If not taken during the available time, the personal leave days cannot be carried over into the employee's next anniversary year. The Commission is not liable to pay for personal leave days not taken.

Shift workers will be granted thirty-two (32) hours paid leave time each year for personal business. All leave time should be taken as full days (12 hours) until there is less than a full day available. For example, 32 hours personal leave would result in two 12-hour day requests that leaves 8 hours. When this occurs, the entire remaining portion would be requested for leave. However, it is also acceptable to combine personal and vacation leave time to add up to the full day leave (12 hours) only when the full-day option is exhausted for shift-workers.

ARTICLE VII - SICK LEAVE AND SICK LEAVE BONUS

Section 1. SICK LEAVE

- (a) All employees shall earn sick leave at the rate of 6.5 hours per pay period. An employee with less than ten (10) years of service may accumulate up to 120 working days (960 hours) and an employee with ten (10) or more years of service may accumulate up to 180 working days (1440 hours).
EMPLOYEES HIRED AFTER 1/1/2018 SHALL RECEIVE THE FOLLOWING :

After five (5) days (40 hours) of unexcused sick leave per year, Management has the right to require said employee see the Commission doctor for each subsequent day. All doctor's excuses must indicate the dates (beginning and ending) for which the employee used sick leave.
